**Ardesia Projects** is a curatorial project dedicated to contemporary photography, stimulating critical debate around photography through exhibition, workshops, residencies & more. Ardesia aims to create opportunities for the photographic community with the intent of unburdening artists from production costs and to stimulate in-depth debate through essays, reviews, talks and workshops. Ardesia is a bilingual initiative (ITA|ENG) which hopes to create a bridge between the Italian and the European photographic landscape.

**Creative Storm** is a series of **monthly peer-review encounters for photography professionals and students**, launched first in Milan (IT), then Brighton (UK) **with the end of providing a constructive space for dialogue, feedback and critique**; a space in which to celebrate error, experimentation and dialogue. We hope to create a space rich of stimuli in which to grow thanks to a compenetration of ideas and alternative approaches.

In occasion of **Soft Power Palace Festival**, we decided to hold a one-off session of Creative Storm at Kunstgebäude, **Saturday 10th November, from 10,30 am to 13,30 pm. The session is open to only five participants, so you will need to book your place to participate!**

#### **WHAT TO EXPECT:**

- A creative environment in which all the participants are invited to present their project and ideas (at whichever stage of development the project is).
- Feedback and dialogues around the explored project.

#### **PARTICIPATION REQUIREMENTS:**

- A brief, written project description
- Visual material relevant to the project, which can range from appropriated material (paintings, other photographs, poems, songs, books etc.) to initial images already taken for the project, up to a finished body of work which you would like to edit or receive feedback for.
- Book your place!

**For more information and to book your place,
